Construction Update
June 2010

Children's Memorial Hospital continues construction on Ann & Robert H. Lurie Children's Hospital of Chicago at 225 E. Chicago Ave. (next to Northwestern Memorial's Prentice Women's Hospital).

In June, we will continue finishing up exterior work. Both cranes have now been disassembled. Our interior work continues with building out of the floors, constructing the 11th floor lobby, wall framing, drywalling, installing flooring and ceilings, and painting. We will continue work on the bridges connecting Lurie Children's to Prentice Women's Hospital (all work to be performed on site).

We also will begin site preparations for installation of the bridge across Superior St. to connect the new hospital to the parking garage on the south side of Superior St. Due to the nature of the work, lane or street closures will be required in the area in front of the parking garage during portions of the project. The construction team and the City are finalizing plans. However, we wanted to give you advance notice of the anticipated work and closures plan. I will update you when more details are available.

During June, work will continue to occur Monday through Friday from 8 a.m. to late afternoon or early evening, and Saturdays from 8 a.m. to late afternoon. Work on Sundays is also likely to continue timely completion of construction.

You may notice increased truck activity related to deliveries. All work will be performed consistent with the City noise code requirements.

We will continue to update you on our construction progress. Construction updates and other information are posted at www.childrensmemorial.org/newhospital/construction.
